1983 GRAIN DIRECTORY/BUYER'S GUIDE

This 1983 Grain Directory/Buyer's Guide comprises three sections. The first is the Directory of Grain; the second is a Buyer's Guide of grain equipment and services; the third is a section on Grain Transportation. The Grain Directory/Buyer's Guide was first published as a separate directory by *Milling & Baking News* in 1978.

The Grain Directory provides a comprehensive listing of companies in grain, including headquarters and plant personnel, terminal, sub-terminal, river and port elevator locations and capacities, receiving and loading methods, rail carriers and elevator services. It also includes, for the first time, a list of U.S. grain exporters. An alphabetical listing of companies begins on Page 64.

The Buyer's Guide includes a complete listing of products and services for grain and an alphabetical listing of companies manufacturing these products. Suggestions on how to use the Buyer's Guide appear on Page 67. The Transportation Section, beginning on Page 113, provides a listing of the major grain hauling railroads, motor freight companies and barge companies.

TABLE OF CONTENTS

GRAIN DIRECTORY

UNITED STATES:

Multiple elevator companies 9
U.S. grain exporting companies 20

This Grain Directory/Buyer's Guide is unique in that each and every listing is verified by the companies listed for accuracy. Every effort has been made to present a publication free of errors and/or omissions. In the event that errors or omissions occur, the editors of *Milling & Baking News* would greatly appreciate communications to that effect so that corrections will be made in future editions.

Trends from the '83 Grain Directory

The 1983 Grain Directory lists 550 U.S. grain elevators, with aggregate storage capacity of 1,801,034,766 bus. The totals include 163 sub-terminal elevators with total capacity of 314,021,690 bus, 230 terminal elevators with capacity of 1,028,999,376 bus, 87 river elevators with capacity of 128,812,700 bus, and 70 port elevators with capacity of 329,201,000 bus. (See tables on this page.) A definition of each category appears on the first page of each elevator section. The 550 elevators in this Directory represent 3.7% of the total number of off-farm grain storage facilities and 24.8% of aggregate storage capacity as estimated by the Department of Agriculture on Jan. 1, 1982. The U.S.D.A. count of 14,792 off-farm grain storage facilities includes country elevators, storage facilities at grain processing plants such as flour mills and other miscellaneous grain storages which are not listed in the Grain Directory/Buyer's Guide.

River elevators

State	Number of elevators	Upright capacity, bus	Flat capacity, bus

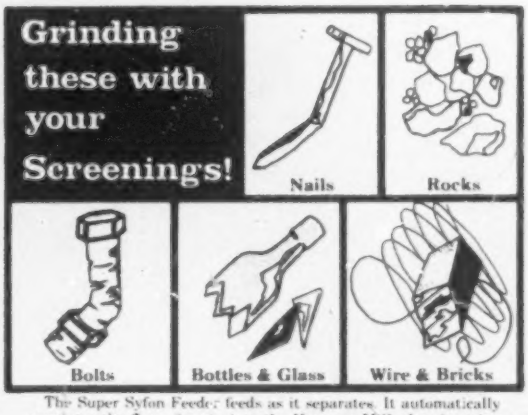
*Includes Ross Industries and Seaboard Allied Milling departments **Includes Lauhoff Grain Co. ***Includes Burdick Grain Co. and O-K Grain Division.



The Super Syfon Feeder feeds as it separates. It automatically regulates the flow of grain into the Hammer Mill, thus insuring constant even load, preventing over-feeding and under-feeding of your grinder.

Prevents burning out motors. Removes all kinds of foreign substance, both metallic and non-metallic, such as brick, stone, flint, bronze, babbitt, glass, coal, cinders, copper, none of which can be removed by a magnetic separator.

Super-Syfon Separator.

Removes all foreign objects.

Super-Syfon Feeder and Separator for all hammer-mills grinding shelled corn oats, rye, wheat, and milo

Bucket Elevators all capacities

Spiral Conveyors all sizes and lengths
